Dear hiring team,

I am writing to express my interest in the Backend Developer Intern position at your company, as advertised. With a strong background in building full-stack applications, from designing databases to architecting REST APIs, I am excited about the opportunity to contribute to the design and implementation of all stages of the applications.

I have gained hands-on experience in utilizing Python, SQLAlchemy, Flask to develop robust backend solutions that support front-end operations seamlessly. I have successfully designed database structures and implemented efficient CRUD operations to ensure smooth data flow within applications.

I am particularly eager to leverage my existing skills and expand my knowledge by learning new technologies within your dynamic environment. I am continuously seeking better solutions to challenges and am excited about the prospect of applying my expertise to solve real-world problems alongside your team.

Thank you for considering my application. I am looking forward to the possibility of contributing to your projects and learning from your experienced team members.

Warm regards,

An Ngo
